## HOW OUR CLEANING SYSTEMS WORK

Unlike other providers our cleaning systems are modern, higher quality and eco-friendly:

- ✓ Our unique ozone laundry disinfection system uses safe O<sub>3</sub> gas at a low temperature instead of using high heat or chemicals that can damage towels or cause more wear and tear.
- ✓ Our ozone system eliminates bacteria, moulds, yeasts, and viruses while eliminating the risk of cross-infection in the laundry process.
- ✓ Our systems are verified and quality approved by experts.
